# Abdullah Zafar

**FRONTEND WEB DEVELOPER**

## PROFILE

BSIT student in the 7th semester who builds clean, fast and responsive websites with HTML, CSS, JavaScript and Node.js. Completed an internship at Elite Digital Hub (Regd.) and has shipped live business websites and two management portals. Looking for a junior frontend or web development role to build real products and keep learning.

## EXPERIENCE

### Intern – Elite Digital Hub (Regd.)

Applied web development skills in a professional team and gained hands-on industry experience on live client and business websites.

## SELECTED PROJECTS

### SkyNex Repair – Business Website

**Multi-page · Responsive | skynex.repair**

Mobile repair shop and training institute site with services, online and onsite courses, parts store and workshop details.

### EDH CRM Portal
